

LLAURADOR WINES
JOSÈ PASTOR SELECTIONS

ORIGIN

Sanlúcar de Barrameda, Cádiz, Andalucía.

VARIETIES

100% Listán (Palomino).

VINEYARD

From two different plots, one of them on *Tosca de Barajuela* soil on the top of the hill of Paganilla's Pago, and the other on the south corner on *Tosca Cerrada* soil.

Paganilla is inland from Miraflores, and the wines have a great balance between the freshness of the coastal pagos and the density of the more inland sites.

VINIFICATION METHOD

Grapes are harvested by hand then pressed whole-cluster into old botas, where the juice spontaneously ferments without temperature control. The wine finishes fermentation and rests for 9 months in the same botas, developing an initial veil of flor which lasts for several months.

PROPERTIES

Total sulfites: <60 mg/L.

COTA 45
UBE PAGANILLA

PRODUCER PROFILE

To revive tradition and fully express the unique terroir of Jerez are the goals of **Ramiro Ibáñez**, the talented mind behind **Cota 45**. Ramiro is one of the most knowledgeable winemakers in Jerez, the storied region in southern Spain. A Jerez native, he graduated with a degree in enology and spent 3 years working around the world before returning home in 2009. Since then, he has been consulting for three different bodegas, and in 2012 was able to start his own project. He lovingly refers to his bodega as his "albarizatorio," or a lab for unearthing the best that this legendary, white-chalk soil has to offer. The name is a reference to 45 meters above sea level, the point where he believes the best albariza soils can be found.
