

Nanclares y Prieto Viticultores Vintage 2021

2021 was a cooler vintage in Rías Baixas, that Alberto and Silvia described as strange: maturation was difficult, harvest was early, and there were some mildew struggles with an attack on the vines' leaves. Alcohol levels are lower than average and acidity levels higher. Overall, despite some difficulties, Alberto and Silvia were happy with the results.

Wines released by Nanclares y Prieto Viticultores from the 2021 vintage:
